## First Nation Partners

Strategic agreements with both Fond du Lac and  
Black Lake Denesuline First Nations.

Black Lake

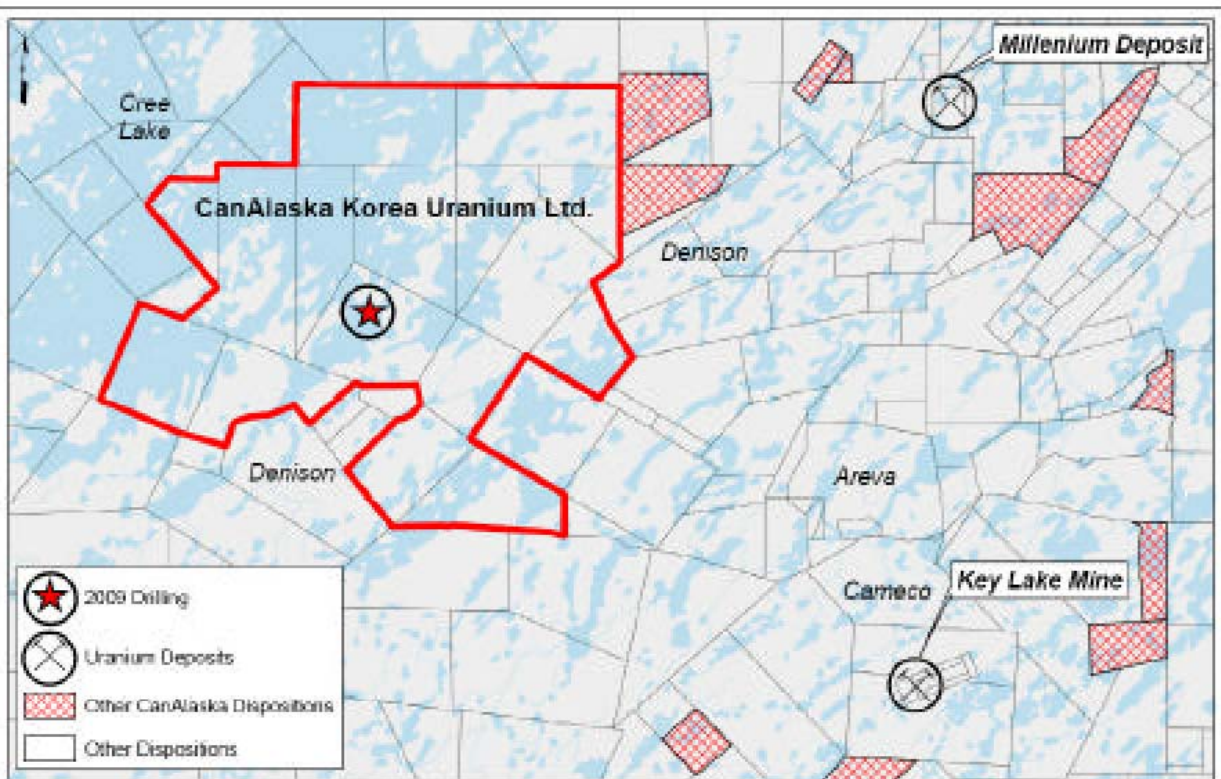

Fond du Lac

# CanAlaska Uranium Ltd.

## Planned Exploration Activities: **Cree East Project**

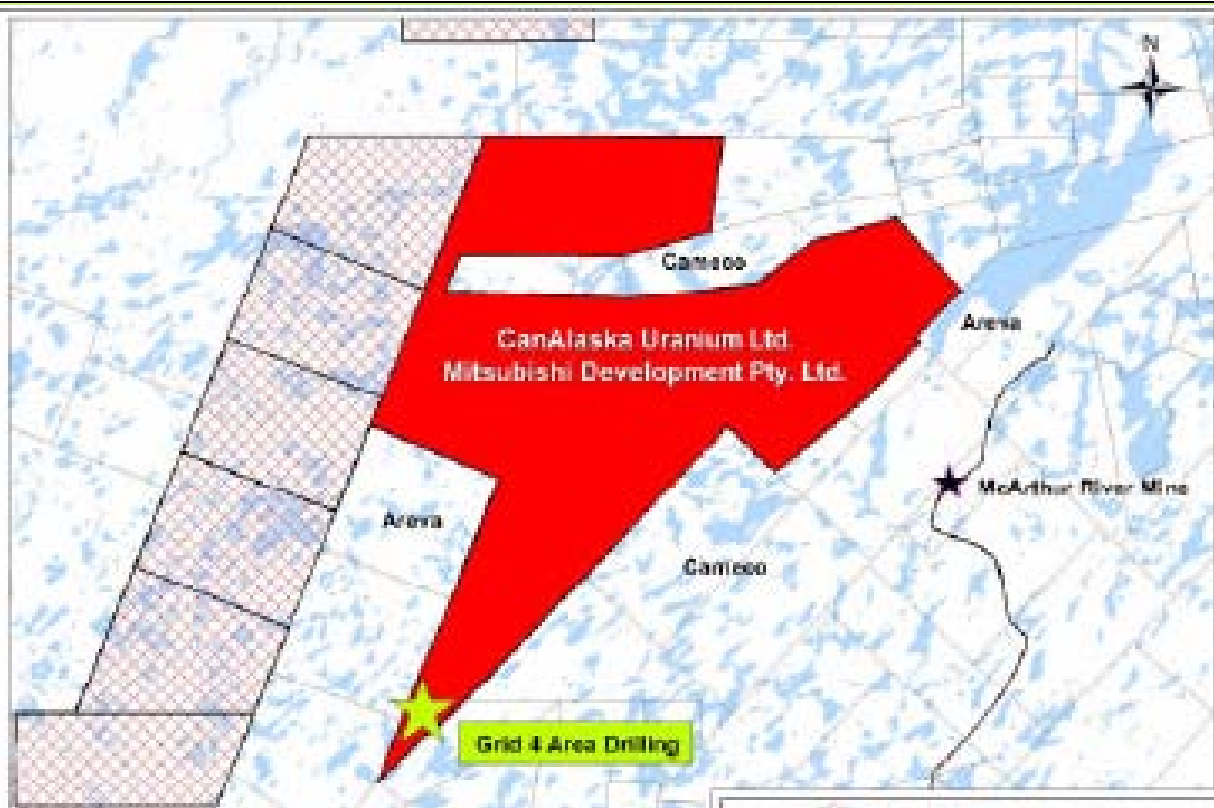

- Located 50 km west of Key Lake Mine.
- Partnered with Korean Consortium.
- Anomalous U and alteration along a 5 km structure.
- Planning additional geophysics and drilling this winter.
- Opportunities for core technicians, freight haulage and camp personnel.

# CanAlaska Uranium Ltd.

## Planned Exploration Activities: **WMA Project**

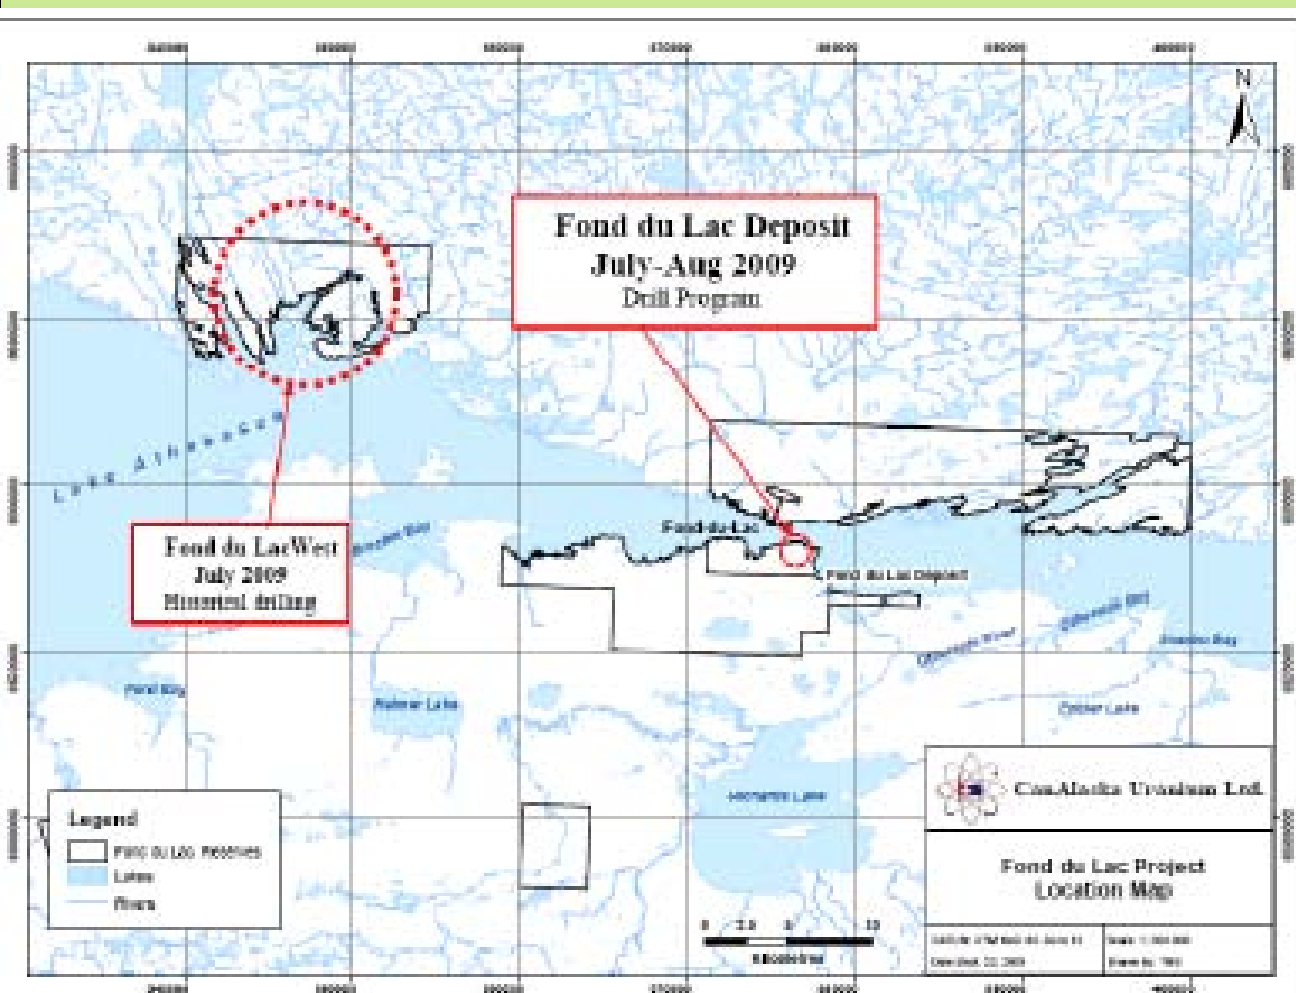

- Located 30 km west of McArthur Mine.
- Partnered with Mitsubishi Development Pty. Ltd.
- Completed 5 holes 4,751 metres. Anomalous U.
- Planning additional geophysics and drilling this winter.
- Opportunities for core technicians, freight haulage and camp personnel.

# CanAlaska Uranium Ltd.

## Planned Exploration Activities: **Fond du Lac**

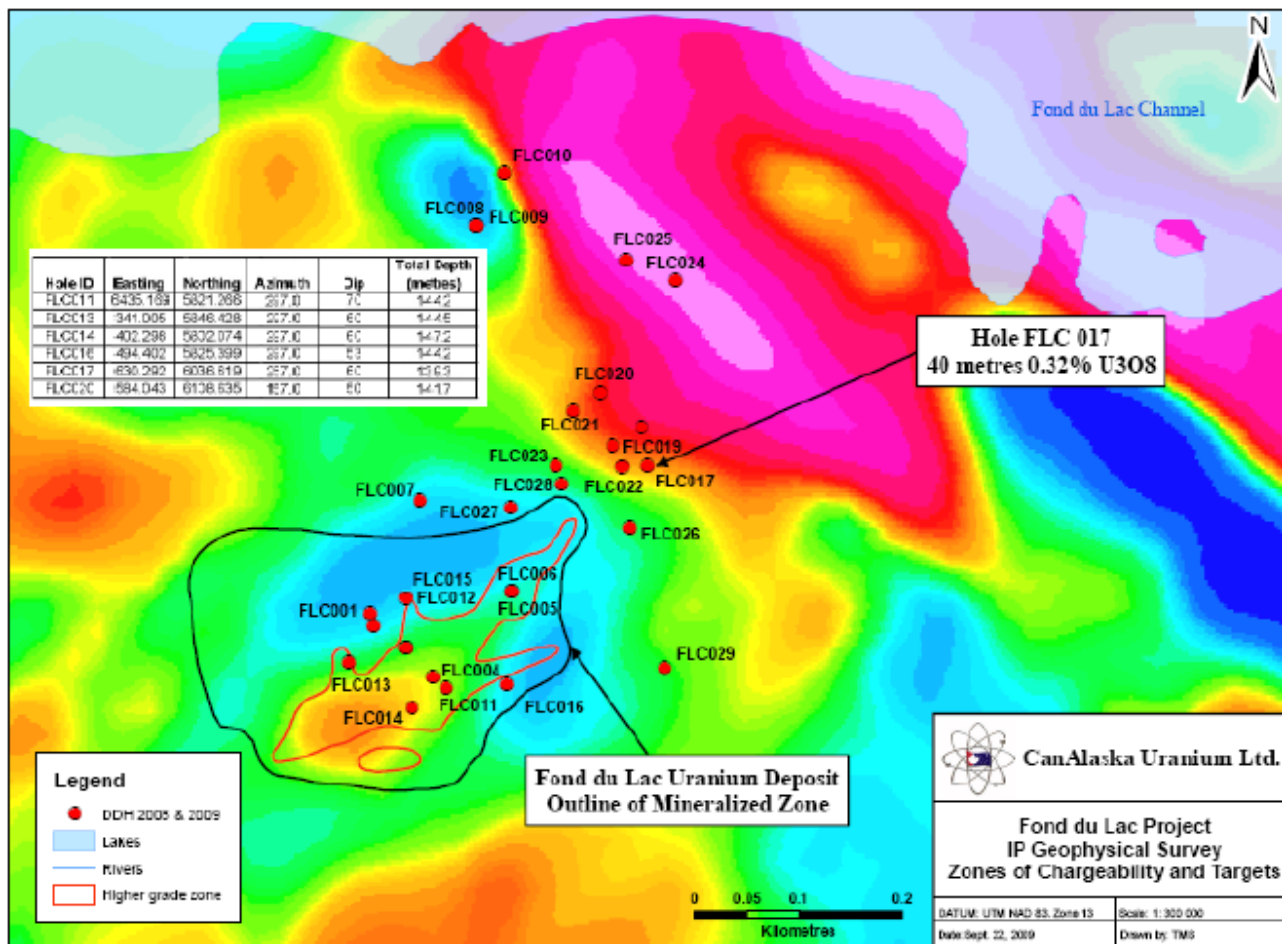

- Located 2 km south of Fond du Lac.
- Partnered with Fond du Lac Band.
- Intersected **41 metres of 0.34%** uranium.
- Planning additional geophysics and drilling this winter.
- Opportunities for core technicians, freight haulage and camp personnel.

# CanAlaska Uranium Ltd.

## Planned Exploration Activities: **Fond du Lac**

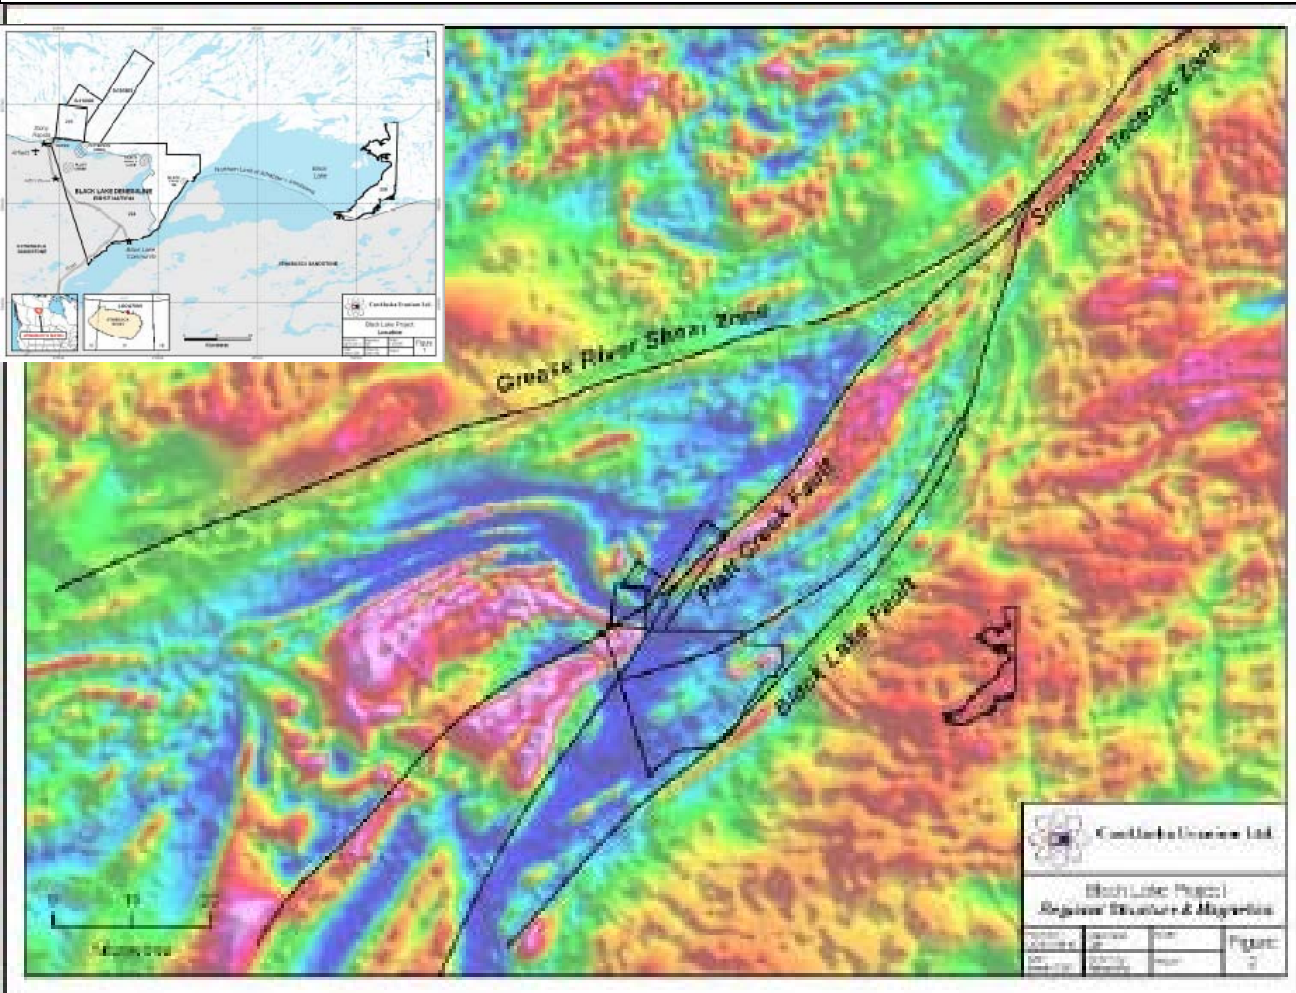

- IP Chargeability Map.
- CanAlaska drill holes in red circles.
- Shows uranium mineralization outlined in black from the 1970's.
- New mineralization intersected NE of known mineralization.
- Further exploration required to understand significance of mineralization.

# CanAlaska Uranium Ltd.

## Planned Exploration Activities: **Black Lake**

- Located on the Black Lake reserve lands.
- Partnership with Black Lake Band.
- Magnetic “x-ray” shows NE Platt Creek structure.
- Anomalous uranium bearing boulders (1.9%) discovered on surface and elevated U (12 ppm) in core.

## Myths about Free Entry and Mining Claims

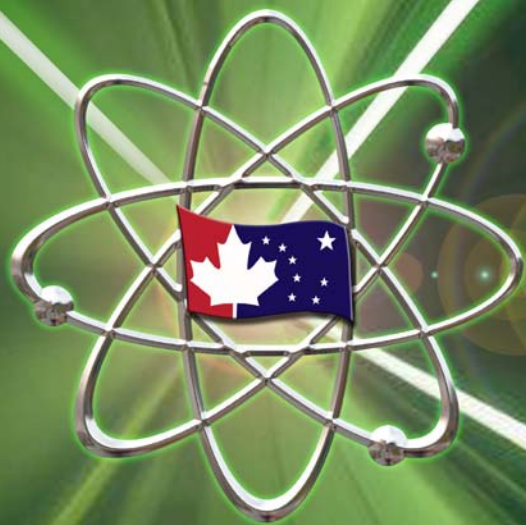

- Mining Claims are not like Land Claims. Unfortunately same term is applied.
- Mining Claims give you two rights:
  1. Right to Explore: (prospect, sample, survey and drill).
  2. Right to apply for a Mining Lease.
- Mining Claims do not provide “free access” or “surface rights”.
- Consultation with local Aboriginal Peoples is required to access the land.
- Permission is required from Land owners.
- Prior to work, Permits or approvals from:
  1. Saskatchewan Environment.
  2. Saskatchewan Watershed Authority.
  3. Ministry of Tourism, Culture and Sport.
  4. Fisheries and Oceans Canada.
- Process can take up to 3 months, and renewed yearly.
